Base Ball on the Olentangy. For a year or two our clubs have had ase ball on the brain.

Now they are to have it on the Olentan We like our National Game. We like to see it played. We don't like to see it "played out," We like it because it affords healthy exercise in allopathic doses, if the playist don't get hit with the ball or bat. When he does, it is unhealthy and un-pleasant. To catch a red hot ball about the bottom button of your vest, sends the catchist on a home run quicker'n thunder

We say we are not opposed to base ball. On the contrary, quite the reverse. We like it. Why? Because we never play ourself. We like to sit under the cool hade of a tree and see the first nine go for FALL IN FOR ROLL CALL! it like bricks. If we had a pyramid of ice cream, a dozen or so mint julips, a few sherry cobblers, plenty ice water, two or three boxes prime Havanas and a few matches, we could sit under the shade of that tree all day and play base ball. It wouldn't tire us a bit. We could even take off our coat and go in for it.

We propose to play the national game in our peculiar style this afternoon. The There will be a meeting of the White Railway Club of this city and the Cincin nati Club, of Cincinnati, are to do the hard work, and we will do the sitting in the

We doate on base ball. We like all tour naments. We like those particularly that end with a champaign supper-if we are not called on to subscribe. We hanker after base ball. It is a noble game; a manly game; a deserving game; a game we love to see others play. We want somebody else to play base ball ten or eleven times a week, and in the atternoons at that.

The new grounds at the Olentangy Park are good ones. There may not be many of the comforts and conveniences of life out there, but they can be fetched out. A two horse wagon would baul out lots of things to eat, drink and smoke. It might haul us

All our citizens who wish to see an exciting game of base ball played in a scientific manner, have only to gaze on Blobbs and ourself this afternoon at the match between the Cinchinati and Railroad clubs. Blobbs will go for the fowls, whilst we shall take a fly in ours.

GRAYSON, THE PEDESTRIAN .- Mark Grayson, the great pedestrian, who started from Richmond, Va., on the evening of July 8th, to walk to Omaha, a distance of 1,858 miles, in forty-seven days, exclusive of Sundays, reached this city on Saturday menced making their settlement with the about 2 o'clock, having accomplished 968 miles of his task, and took rooms at the Goodale House. He leaves this morning between 3 and 4 o'clock, to finish the balance of his faunt. As we remember the terms of his contract, he was to make 60 speeches on his route, and carry a flag the entire distance. He has delivered 23 speeches thus far, making the first one on the eve of starting from Richmond. THE GREAT MATCH GAME OF BASE BALL. -The match game of base ball to be play ed to-day at the new grounds at Olentangy Park, between the Cincinnati Club, of Cincinnati, and the Railroad Club, of Columbus, has excited great comment and much speculation, for the Cincinnati Club ranks as the third best in the country, while the Railroaders are no "slouches." Increase of Mortality. The alarming increase of mortality in the city is drawing the special attention of the Sanitary Commissioners of this metropolis, and is necessitating inquiries into the causes which produce such tatal effects. Much of the increase in the death rates is lirectly traceable to two causes-defective drainage and sewerage and a deficiency of a supply of water for family purposes.

A general agricultural report of the condition of the harvest on the continent says the harvest in the south of France is terminated. The crop, which in certain lo-calities of the war was supposed to be in great jeopardy, will be good and reapers are going on everywhere, and the farmers seem to be well satisfied. The yield will be large, although the quality leaves some-

thing to be desired.

At Mont Shery the sickle is also in the Corn, and the crop will be good.

Letters from Normandy give the greatest hopes, and on several points the product will be above the average. Similar accounts are received from the

In Hungary the harvest is advancing rapidly. Great plenty is united to excellent quality. That country has still in its granaries wheat of last year. Crops and prices are consequently falling throughout Germany. There also is greatabundance of grain in Belgium. Wheat is almost ready everywhere for cutting.— The crop is fine in every respect.

The steamer France, from New York, arrived yesterday. Desperate.

In the late Congress, Columbus Delano of the Thirteenth Congressional District of Ohio, was admitted in place of General Morgan, who had been regularly elected. The Republicans were in great glee over mittee, sitting at the Fifth Avenue Hotel, the outrage, but it was discovered in the are organizing measures for a campaign. District that if Delano, who had worked up the job, was brought out for nomination, he would be slaughtered, as the feeling against him was intense and bitter. Congressional Convention assembled on Wednesday last in Newark, and dropped Delano, and were afraid to make a nomination at all, but went after a handful of working men who had named a Mr. Cooper, and agreed to recommend him to the Republican voters of the District. This is a public admission of the gross outrage perpetrated by Delano and his ring, and also of numercal weakness.

> and modest General Morgan will be elected by an overwhelming majority, no one well informed in the District doubts. As the Republicans hereabouts are convinced that the coalition of Workingmen and Democrats upon a member of Congress in this District is fatal to the contracting parties, what do they think of the Ohio arrangement? - Pittsburgh Post.

Still They Come. Stephen J. Meany, formerly a Republi-can editor in Toledo, can't go Grant. At a Fenian meeting in Washington Mr. Meany came forward and announced that he had been an advocate of General Grant, his name had been to him a household word, but only did he endorse him as a soldier.— It would be a shame for the people to place him in a position for which he is not fitted,

t would not be right to elect a man as affairs are now, who has no policy; and Grant has said that he has none, and there should be given to us a man who has a policy and will carry it out.

Mr. Meany has had a years experience in
British prisons, for words spoken in New
York. He knows that the Radical party in this country, controlled, as it is, by the bondholding aristocracy, is the mere tool of the English capitalists, and that no American citizen can expect the protection entitled to, for fear it might have a bad ef-

fect on the money market.

Thousands, daily, are becoming disgusted with the Radical party, and declaring their intention to vote for Seymour and Blair .-Plain Dealer.
